

DULANY WINS IN CLOSE CONTEST; NEW COUNCILMEN

Haywood Baxter Elected Marshal Over Three Good Opponents

By a vote so close that a switch of six votes would have changed the result, John A. Dulany was elected mayor of Pahokee over George C. McFarley in the annual town election Tuesday. The vote: Dulany 206, McFarley 204, R. P. Todd 81. This will make Mr. Dulany's third term as mayor.

J. E. Cochran, an old-timer in Pahokee, and Frank Bass, a relatively recent resident, were elected to the town council. Hugo Hise and Mike Hoppers, candidates for re-election to the council, were defeated. The vote: Bass 342, Cochran 337, Hise 234, Hoppers 107, J. C. Berry 173.

Hold-over councilmen are O. B. Marshall, J. R. Crosby and Robert W. P. Walker, town clerk, unopposed, received 568 votes.

Haywood Baxter, elected town marshal by the 315 votes he received. Other candidates for marshal were: W. A. Humphrey, 169, E. O. Murphy 55, J. C. Tabb 140.

New registration was required for the election that was held Tuesday. The fact that 680 votes were cast in the election indicates an increase in Pahokee's population, for it is assumed that not all of the persons who actually did vote.

No issues of consequence were involved in the election, the result having turned more on the exertions of the candidates and their supporters than on anything else.

Haywood Baxter, Pahokee's new marshal, is a son of Clayton Baxter, one of the earliest pioneers in East Beach. Haywood served on the Pahokee police force for several months and up to a short time ago.

The newly-elected town officers were sworn in at a meeting of the council Wednesday night.

COLD STORAGE FOR BULBS, POTATOES

More potatoes will be carried over in the Florida Power & Light Company's cold storage at Pahokee than were in 1936, says Manager H. L. Lapp, judge from the inquiries of growers. Some of the potatoes will be used for seed next season and some for use as edibles.

A good many gladioli bulbs will be stored, it appears, and a few more will be stored for use by Rex Beach from his Highlands county farm and some from the "Purple Heart" at the plantation.

The ice plant has large storage capacity for ice; when the shipping season ends, the storage space is available for storing other commodities, no ice in such quantity then being required. When planting season closes on the stored commodities are removed, making space for the large ice supply that will be needed to provision freight cars.

ROAD PATROL RECORD

Road patrolmen of Sheriff W. H. Lawrence's office rode motorcycle 4,308 miles and made 20 arrests in April in enforcing traffic regulations, it was announced Monday. The three motorcycle officers whose work was covered by the report stopped 125 automobiles with improper lights and 21 reckless drivers. The report did not cover work done by Tommy Sternia, chief of patrol, of the work of Francis Cross, Everglades road patrolman.

WEATHER REPORTS

Weekly meteorological record at Everglades Experiment Station for week ending May 1, 1937.

Date	Max	Min	Rel.	Fall
5-27	84	63	0.25	187
5-28	79	60	0.00	190
5-29	77	59	0.00	292

5-3	88	69	0.00	200

AVERAGE 62° TOTAL 605

Total rainfall since Jan. 1, 1937, 18.35 inches.

JUNIOR CHAMBER PLANS BIG PARTY

A conference of the sixth district of the Florida State Junior Chamber of Commerce will be held Thursday, May 13, at West Palm Beach, and about 50 members are expected to attend from Canal Point and Pahokee, to make up the total of 350 members, and for whom reservations have been made.

HARD TERMS BY WPAC ON GLADES STORM SHELTER

It and School Building Is Threatened by Conditions Imposed

A special meeting of the county school board, held at Canal Point, Tuesday, considered the project to build a school building at West Palm Beach. Bids were received by the board Tuesday, but two matters came up for delay action. The bids called for more money than was estimated as required, and the school board was not willing to accept the conditions.

There are seven building projects

PLAN TO ADJUST BONDS REJECTED BY BONDHOLDER

Refuse to Accept Settlement on Basis of 30 Cents on Dollar

Arrangements for a loan of \$3,720,000 from the Reconstruction Finance Corporation were announced last month by officers of Everglades Drainage District with the promise that for this means the \$16,000,000 bonds of the district would be paid off on a basis of 30 cents on the dollar, but this plan has been halted.

H. C. Rorick of Toledo, Ohio, head of the Foreign Bondholders Protective Committee, is not willing to accept the 30 cents on the dollar plan.

According to dispatches from Tallahassee, however, he has consented to discuss the matter with the committee of the district.

A.P. dispatch said Mr. Rorick's committee includes Joe Grundy, a director of the Florida State Bank, and J. W. Waggoner, a senator from Pennsylvania. His committee claims to represent 90 to 95 per cent of the bondholders.

An attorney for Everglades Drainage District who lives in Washington is reported by the "Daily News" to be in the city.

Washington "to confer with RFC officials regarding legislation to be sought, and if this is the case, settlement of the district's debts and adjustment of its finances is long overdue."

It is thought that the RFC had authority under existing laws to handle loans of this character.

Alfred H. Wagner, chairman of the drainage district, is quoted in the Palm Beach Post as saying he will join the lawyer in Washington if necessary.

Mr. Wagner says he has no word direct from Mr. Rorick.

Bill to authorize refunding of Pahokee and Pelican Lake sub-drainage district have been introduced in the U.S. House of Representatives by Senator Beauchamp.

South Bay, May 6.—President Auerch of the George D. Auerch Construction Co., general contractor on the road No. 26, is very much displeased with the progress being made and is contented with the work.

He is hoping that the work will be speeded up by the work.

It is rumored that a new superintendent will be appointed to the project.

He is well known as a Florida property owner and maintains a home in Jacksonville but will make his home temporarily in South Bay, having taken one of the V. C. Denton apartments.

He will become him as one of our newcomers.

Road shooting on the Spadaro Construction Co. contract on road No. 26 will probably be finished this week. Other work, however, will continue for some weeks before the contract can be completed according to specifications.

Mac Harrell made a trip to Haines City, Fla., to inspect the truck load of materials to be used in the Bolles canal bridge which is being constructed by the contractor.

As explained by several administration spokesmen interested in the project, the proposed draft of the sugar bill now before the subcommittee is objectionable.

SEASON ENDS WELL FOR CANAL POINT GROWERS

The 1936-37 vegetable shipping season ended with a flourish for the Canal Point district in a blaze of glory, for this is the best season the area has had for several years.

Some packing houses closed after the flooding rain in April, notably at Cardwell, between Pahokee and Belle Glade, but most of the houses have been grading beans and packing tomatoes up to now. Practically all of the houses are expected to continue operation for three weeks.

Good market prices for vegetables continue up higher. Ordinarily a quality bean brought \$2.25 yesterday.

Growers in the Canal Point district made money this season. To get funny about it, some growers made so much money this season that they almost got out of debt. Those who were not in debt made "killings."

Canal Point—7 tomatoes, 2 beans, 6 mixed.

Recent Operations

By Paul Rardin

TOO LATE TO CLASSIFY

By Russell Kay.

King Winter, who has been in possession of Florida Manor on the south end of Lake Esia for the past eight months, has relinquished the property and Earl Brown, advance agent for Miss Florida, has been busy preparing for the young lady's arrival.

Ten yew, sleet, snow, frost and ice have been the rule for the tropical shrubs and flowers. Royal palms and bearing orange trees, snugly packed in rich Florida soil, are on their way north to be planted in Florida's tropical garden.

With an enlarged area at her command, Florida's 1937 show at the Great Lakes Exposition will dominate the attention to even a greater degree than a year ago.

New buildings and unique exhibit material are being added, which will make our display practically a new show and one that is certain to amaze and delight Exposition visitors.

While over four million persons visited the Great Lakes Exposition last year, when we consider the fact that within a 300-mile radius of Cleveland there are twenty-six million inhabitants, it is apparent that we have only scratched the surface and officials of both the Exposition and the Florida Exhibit anticipate an even larger attendance this summer.

During the period that it was my privilege to serve as a member of the Florida Exhibit staff last year, I encountered thousands of visitors who were so impressed with our display that they expressed their intention of visiting the state.

Proof that they meant what they said is evidenced by the fact that no less than fifty folks whom I met in Cleveland have dropped in on my office in Tallahassee. I encountered them at one place or another in the state this winter.

I know of several who have made investments here, and others who intend to do so. A number have written me personally for information as to where they might secure tree-ripened Florida fruit to be shipped direct from the grove at regular intervals.

Florida's freedom from a sales tax, state income tax and inheritance tax proved to be one of the strongest appeals. Literature and information on this point was constantly demanded and home-owners were eager for details concerning our homesteaded exemption.

I am satisfied that the benefits we derive in not having such forms of taxation are far greater than any revenue they might bring in and I firmly believe that during the next few years these benefits will be multiplied in the form of new residents and increased Florida investments and greater tourist patronage to the extent that our actual revenue from present forms of taxation will far exceed any we might gain by imposing such levies.

Thousands of people from the Great Lakes area paid Florida taxes this year who never paid before; increased revenues from our gas tax, automobile tax, racing and many other sources can be justly credited, and in no small measure, to Florida exhibits at the World's Fair in Chicago at Rockefeller Center in New York and at the Great Lakes Exposition in Cleveland.

READ CANAL DISCHARGE
Men from Everglades Experiment Station come to Canal Point at regular intervals and measure the flow of the canal as a part of a study of water control. The station is on Hillsboro canal which is connected with West Palm Beach canal by means of the road borrow ditch between 20-mile bend and 6-mile bridge.

Some of us have paid attention to poinsettias for many years without noticing that the plant has seeds. The making of seed usually is not noticed because the shrub is propagated in this country from cuttings and the shrub is trimmed back just when the seed is forming, the tip ends being cut off. Pratt, Pope of Canal Point has the finest growth of poinsettias in the upper Glades; he says he has sometimes saved the seed and planted them but it is easier to grow new plants by using cuttings instead of seed.

AN OCAJANA AFFLICTION

Ocala Banner.
We are called to ask (possibly at the instance of interested parties) every now and then if we late discuss unfavorable aspects of the canal project, or dare to headline suggesting that everything is not going well with the proposal. So we feel rather timid about saying it, but there are some who think that the canal has been more of a curse than a blessing to Ocala.

We do not say, bear in mind, that it would not be a thing in our history if construction should be resumed. It would of vast benefit to this section if the project should be kept, but we are perhaps of greater benefit to some other sections.

Nor do we say that it was a curse to have had the bulk of the first \$5,400,000 that went into the canal project in this section. It provided the stimulus for a brisk, though short-lived boom.

But we do think that the psychological aspects of the canal proposition has frequently played merry havoc with local business. The on-again, off-again, finagling that things have been going as many local people on pins and needles most of the time.

Mr. So-and-so would make certain improvements in his business if the canal would be built. Mrs. So-and-so would buy that new dress if she knew all was well with the canal. And somebody else raises the rent on the basis of canal hopes, while another person insists on getting a fabulous sum for that piece of property because he figures it will be worth it when the canal work is resumed.

Such a state of affairs, we believe, is not conducive to a sound, steady development of a community. We fear that too many people are acted with canalitis, a disease which has distorted their better judgment. They are inclined to long sight of the fact that Ocala was here long before much progress was made toward building a canal, that it has many other legitimate reasons for its existence, and that it should move forward steadily, canal or no.

TEACHER SALARY PLAN

Martin county board of public instruction has worked out a new system of salary payment for teachers, whereby the instructor will be paid according to his college qualifications and experience in local schools.

Under the new set-up which has proved successful in other counties, the teacher who has a four-year college degree, six consecutive years of experience in county schools and teaching certificates through the 12th grade will receive the highest salary.

The new program was adopted as an inducement to teachers to strive for higher college degrees through summer-school work.

The teacher who does not have the highest of college degrees but who has taught a number of years in a Martin county school will be protected by the tabulation of salaries which will allow her as much as a college graduate who has had no teaching experience.—Stuart Daily News.

KILLS 'DOPE' TAX

Tallahassee, May 5.—Unanimous disapproval resulted today when the house finance and taxation committee considered a proposed tax of one cent a bottle on soft drinks. Representative Morrison of Waluila county, who introduced the bill, estimated it would produce about \$1,000,000 a year. The committee rejected his proposal to amend the measure so the tax would be one-third cent a bottle instead of one cent.

The distance from Pensacola to Key West by rail is almost equal to that from New York to Chicago.

Community Gossip

There is a good deal of interest in the upper Glades in horse-racing, may be no larger interest here than elsewhere, though the interest is more lively just now, because the Kentucky Derby is to be run at Louisville tomorrow (Saturday), and E. R. Bradley's horse Billionaire is in it. Colonel Bradley operates the Beach Club at Palm Beach and owns the Palm Beach Post and the Palm Beach Times. He has an article in this week's issue of the Saturday Evening Post that tells of his racing experience.

There were more new-comers to the Pahokee-Belle Glade section this year than ever before. Some of them came in to farm, others to look for work on government jobs and others to work as beans-pickers or graders in the packing houses. No big hand company is operating in the upper Glades now, and the country is not being advertised by that means which in the past brought in so many persons—the Everglades is advertised by word of mouth, one person telling another.

Pretty soon the well-to-do people will be going away on their vacations—their summer voices

things are taken care of in the minutes of the organization. What is wanted is real news items, and news means unusual things. The Everglades News telephone number is 2661. There is always some one in the office to take items if the items are phoned in during business hours.

AT THE Churches

COMMUNITY CHURCH

South Bay
Alva B. Peck, Minister
10:00 a. m.—Sunday school, Mrs. H. C. Wilks, superintendent.
11:00 a. m.—Morning worship.

CHURCH OF THE NAZARENE

Pahokee
Sunday school, 9:45 a. m.

Canal Point

Tallahassee, May 5.—I thought of a few days that the first week of the season was going to be the hardest. But, I've changed my mind about it now. As the weeks wear on it seems that each one comes just a little more tedious. By the time the season is over I again I'll jump every time some one shouls my name.

Visitors from Palm Beach continue to come and go and seem to be just as busy as I can be. Several fellows from Palm Beach were among the present this week and in fact I may not leave my home's name I'll skip that any more. Anyway, I was sure glad to see them and gather a little at hand news from the thriving port city.

I introduced a bill this week to guarantee the purity of strain seed sold for commercial purposes. A like bill has been introduced by the Representative of Marion county and it may be that we can arrange some sort of a consolidation that will please all concerned. Then this morning I introduced another bill changing the status of Lake Okechobee.

There are a lot of things that interest me in the House since I'm a rookie up here. For instance, the commanding speeches made by the sergeant-at-arms after the House has adjourned when he turns all visitors in no uncertain terms that they must depart from the House chamber. Depart they must and before you know it there's a flock of them back on the use floor. Then another warning speech and so on and so on to the night.

Like the manner in which the members of the House conduct their business. They act to me like they actually want to get something done for the interests of the back home. They are an inquisious lot and I believe are making an earnest effort to effect the serious and far reaching legislation which will bring about a better Florida. Just so long as they continue along that line I think they should have a friendly pat on the back from their constituents.

Another thing that interests me is the fact that some little bill will come onto the floor of the House and in its beautifully blue covered back it looks as harmless as a kitten. Then things pick up before vote, on final passage some one would be led to believe at times that actual enactment of the law of the bill would bring about ruin of the entire state. And thus it goes.

An interesting battle is always in the offing when Martin of Hillsborough and Marion of Polk differ on any question. So far they have had three or four verbal battles, which attracted the attention of all members and the boys at the press table also sat up and took notice. Martin of Polk is a nephew of Martin of Hillsborough and received his training in the finer arts of debate at the hands of his Uncle. He is a nephew of Martin of Hillsborough and received his training in the finer arts of debate at the hands of his Uncle. He is a nephew of Martin of Hillsborough and received his training in the finer arts of debate at the hands of his Uncle.

Another battle of the old school is Bill Wood of Lee county. He is the attack on the "Cow Bill." The morning and was answered back for him by young Dan McParty of Port Pierce, sponsor of the bill. Wood of Lee doesn't make any opportunities to take the floor and tell exactly what he thinks about a bill when he believes it to be detrimental to Florida.

When one leaves the House chamber and starts to a committee room one necessarily must prepare to dodge those who seek

SOUTH BAY AND LAKE HARBOR

South Bay and Lake Harbor, May 6.—The Christian Endeavor devotionals were held at the Lake Harbor Community church Sunday evening. Polly Grant, assisted by Marie Merriam, Edna Hedges, Ralph, and Mrs. M. J. Merriam, had charge of the topic discussion. Those present were Mrs. Mary Bishop, Fred Lee, Marvin Lee, Dorothy, Gladys Edeline, Vernon Henderson, Crawford Royal and Bertha Perkins.

The final meeting of the Parent-Teacher Association will be conducted at the school auditorium Monday May 10 at 8 p. m. In order to give many fathers the opportunity to attend as possible. Plans will be discussed for the entertainment of the County Council here on May 10th. Reports will be heard from all officers and chairmen of committees and each room in the school will have a number on the program. Installation of officers for the ensuing year will take place.

An invitation box supper will be an event of Friday evening at the home of Mrs. W. H. Rawie, Miss Louise Rawie and Miss Betty Rawie, co-hostesses. Boxes brought by Mrs. Mary Bishop will be auctioned off during the evening in order to secure partners for supper. The proceeds will be presented to the Sunday school in carrying out their program of activities.

The Tuesday afternoon Bridge Club was entertained by Mrs. H. C. Williams at her home this week. Two tables of contract were enjoyed. Mrs. C. E. Forbes winning high score. Apple pie a la mode and other tea were served by Mrs. Frank Breen, Mrs. F. W. Mitchell, Mrs. Forbes, Miss Alice Williams, Mrs. C. E. Barstow, Mrs. M. E. W. Landingham and Mrs. R. A. Johnson.

The chicken dinner served by the Ladies Aid of the Community church of Lake Harbor at the C. E. Thomas packing house Sunday evening netted the church treasury \$71. The room was tastefully decorated with palms and palm fronds and the tables with cut spring flowers. The dinner was served cafeteria style to 150.

or more guests. The Christian Endeavor Society of the Lake Harbor Community church is putting on a "Tom Thumb" wedding at the church on Friday, May 7 at 8 p. m. Adult tickets are 25 cents and children 10 cents. Everybody is urged to take advantage of this event.

The elimination contest for the annual spring dress revue to be staged by the County Council of the Women's Home Demonstration Club at the Westgate gym on May 27 was held at the home of Mrs. H. C. Williams on Thursday afternoon. This is the first year that elimination contests in each local club have been held. Each member of the South Bay club was privileged to model any number of different types. Following the style show, refreshments were served, thus making the event in the nature of a silver tea. Clever hand blocked invitations were presented to all women in the community.

Mr. and Mrs. C. R. Freedlund and family have returned after two weeks absence. Mr. Freedlund on a business trip to North Carolina and Mrs. Freedlund and four children from a visit to her parents at Miami. Mrs. L. G. Thompson, member of the South Bay club, is visiting here this week.

Mr. and Mrs. W. M. Jeffries, Mr. and Mrs. Billy Jeffries, Mrs. Mary Louie, Miss Mary Louie, Edith and Betha Alley, Dale Danks and two children, John, William, Jack Ratley, Bobbie Mathis, Charles Denton and Mary Grace Denton motored to Flaehaven on Sunday for a farcical picnic.

W. C. Allen, G. J. Barstow and C. W. Grogan attended the spring reunion at the Scottish temple in Ft. Lauderdale on Sunday. A splendid address was given by Williams of Miami, Grand Orator of the Grand Lodge of Florida.

Wayne Hardy, son of Mr. and Mrs. C. M. Hardy is a patient at the hospital here. He is recovering from a case of appendicitis.

Mrs. Mary Albert, who has been very ill for several weeks, was taken to the Good Samaritan Hospital for treatment the first of the week.

Mrs. E. M. VanLandingham, Mrs. R. A. Johnson, Mrs. Frank Breen and Miss Alice Williams played 9 holes of golf on the Clewiston links Thursday afternoon.

W. C. Grogan, G. J. Barstow and W. C. Allen attended the spring reunion in the Scottish Rite temple in Lake Worth Sunday.

A "kiddie" party was given in the home of Mr. and Mrs. W. H. Rawie recently. Mary Louise Jeffries and Mary Louise Carlton were hostesses and served refreshments. Guests appeared in costume.

Mrs. Emma Williamson and children of West Palm Beach, visited Mr. and Mrs. W. H. Rawie and family Sunday.

Mr. and Mrs. J. E. Payne are departing this week for Michigan.

Mr. and Mrs. Walter Greer of Belle Glade were Sunday dinner guests of Mr. and Mrs. V. N. Greer and family.

Mr. and Mrs. C. F. Denton, Mr. and Mrs. V. C. Denton motored to Sarasota Sunday.

Mrs. M. E. Cooper has been called to Georgia by the death of her father.

Mr. and Mrs. S. E. Campbell transacted business in Fort Lauderdale the first of the week.

When You Feel Stupid (Continued)
Take a dose or two of Black-Draught. Get fresh for a new work week, easier life, pleasant than you can realize well-free from the bad feelings and distress often attending constipation.

"Highly recommended," Black-Draught has helped to bring prompt relieving relief from constipation thousands of men and women who on it.

Officers Installed By B and P W Club

Installation of officers was the business of the Everglades Business & Professional Women's Club Tuesday evening at the meeting at the Womans Club building in Pahokee. The new officers are: Mrs. P. H. Danks, president; Mrs. Jewell Fitzgerald and daughter, were guests of Mr. and Mrs. L. G. Lay of Lake Harbor recently.

Mr. and Mrs. P. S. Campbell and sons have returned to their home in Vero Beach after spending the winter with Mr. and Mrs. S. E. Campbell.

Captain Earl Hendrickson spent the week end with his family in Fort Lauderdale.

SOUTH BAY P-T-A
In executive session Monday at the health center, officers of the Parent-Teacher Association adopted plans for the final session of the year which will be conducted in the school auditorium Monday, May 10, at 8 p. m.

Reports will be heard from all committees, each room of standing will be represented on the program and officers for the ensuing year will be installed.

State Song Author To Be Memorialized On Suwannee Banks

BROOKSVILLE, Apr. 21 (FNS)—Stephen Foster, famous American folk song writer, shall be honored by a Foster Memorial on the Suwannee River in Florida which has been famous in his song "Swanee Lake Home," which has been an official song of the state of Florida.

Plans for the "Fasting of the Suwannee" for the purpose of raising money for the Foster Memorial will be announced this week. Mr. Leon Whitehurst, chairman of the Foster Memorial, is being sponsored by the Florida Federation of Music Clubs.

The memorial will be built at the mouth of the Suwannee River, and the committee suggests an amphitheater, with over life-size statues of Foster and characters or scenes symbolizing his best-loved songs carved in bas-relief on the rock in the background.

Appeals for funds will be made by the State Federation to all musical organizations, schools, civic organizations and individuals, and many benefit programs will be also given.

7 National Parks Attract Tourists

Herbert Evison, regional office in charge of the National Park Service, in charge of cooperative work in twenty-seven southern and eastern states, is inspecting the Florida State Parks. Mr. Evison's headquarters are in Richmond, Va.

He was generous in his praise for every one of the seven established state parks, particularly Fort Clinch State Park near Ft. Myers, and the Highlands-Hardee county park in the Highlands-Hardee county, and Torreya State Park in Levy county.

Florida was fortunate in securing one of the three new CCC camps to be established in the 22 states in the south. The state was assigned to Fort Clinch because this park is considered by the federal government as the most outstanding in the eastern United States.

The value of state parks to Florida was especially emphasized by Mr. Evison, inasmuch as they are greatly needed for the recreation and enjoyment of our permanent residents, as well as for our seasonal visitors. Out-of-state visitors need have no fear of being disappointed if they visit each and every one of Florida's State Parks, as they will be well paid for their effort. The state will benefit by the lengthened stay of visitors and will be well advertised by satisfied and delighted visitors.

The federal government is requiring the state to assume a greater financial responsibility insofar as the construction of the parks is concerned. This is in line with the announced policy of the government as expressed by Director Fechner, head of the CCC, the agency which supplies the major portion of the funds and man-power for this work. Here to fore the state has contributed less than five per cent of the cost of this work, totaling in the neighborhood of \$700,000 annually. The state should provide at least ten per cent of this sum by appropriating \$700,000 annually to the Florida Board of Forestry for state park work, stated Mr. Evison.

Florida's forest lands bring in some \$12,000,000 annually. Wood, equipment, and manufacturing plants represent an investment of more than \$95,000,000, emphasizes the State Chamber of Commerce.

Florida Exhibits In North Responsible For More Tourists

DELAND, April 21 (FNS)—Blair McGrath, of the finance department of Florida Exhibits, Inc., the statewide organization sponsoring the Florida exhibits held during the past four years at Chicago, New York and Cleveland, reports that the extraordinary influx of winter visitors during the season just closing, is fully appreciated by the people of the state and that there is a very general disposition to believe that they have been of much value from a publicity point of view that the exhibits should be continued.

The great increase in gasoline and racing money distributed among the counties of the state, particularly this year, has left an indelible impression upon the people, especially the taxpayers," said Mr. McGrath. "I find them more ready this year than ever before to contribute to the exhibit budget without argument. They have seen the result of the advertising done by the exhibits and they want them continued."

"During the past few days Pineville county appropriated its full quota—\$14,000, or at the rate of 5-1/2 cents per capita. Hillsborough county likewise appropriated its full quota by adding \$5,000 to its \$2,000 appropriation earlier in the season. The statement issued by the state controller Lee to the effect that each of the counties in the state would receive \$24,000 from the racing fund, practically \$8,000,000 more than the state had received from that source in the past, will, in my opinion, prompt every county to meet its quota and complete the exhibit budget needed to carry on at Cleveland during the coming summer and to finance the shows to be made by the state.

New York, Detroit, Philadelphia, Cincinnati and Chicago—next year."

Florida's outstanding agricultural products have given their names to two Florida counties. They are Orange and Citrus.

NOW IS THE TIME
Don't let your gladiator money go out of our trade territory. Look over your stock of letter heads, envelopes, etc., and see if you don't need some more. Phone The Everglades News and let us know what's wanted. We need the work.

FLORIDA MOTOR LINE
Buses of the Florida Motor Line have been going through Canal Point from time to time, not on regular schedule, but seemingly carrying sight-seeing parties. It is reported that Florida Motor Line is considering resuming its service on Conners highway through Okechobee. The company applied for permission to run buses on Tamiami Trail but the application was rejected at Fort Myers and Ft. Lee county.

NOT SO MANY TRUCKS
Not so many big trucks have come into this region lately on loads of vegetables. This is taken as evidence that supplies are available elsewhere in the state.

About 550 non-relief supervisory workers on WPA projects in Florida are being released during the present payroll period, it was announced recently by Frank P. Ingram, State Administrator of the Works Progress Administration.

This action amounts to a reduction of approximately 50 per cent of such employees attached to WPA projects in the state and Ingram, and became necessary under an order issued by Harry L. Hopkins, National Administrator effective April 15.

This latest administrative order provides that 80 per cent of workers on WPA projects be certified relief clients. It also provides that not more than five per cent of employees on a project be paid above the security or relief wages.

"All exemptions as to hours, wages of new hires, casual employment heretofore granted were also revoked by the order from Mr. Hopkins," declared Ingram. "The order is applicable in all states, he said.

"This cut will affect our present operations in Florida only to a limited degree," Ingram declared. "Reduction in number of employees on WPA projects allowed and curtailment of funds made services of these workers no longer necessary."

"He added that state and district WPA officials are making every effort to put into effect the Washington instructions so as not to interrupt physical progress on projects now being worked."

"We will continue to work as many persons as possible with the money allotted, especially those placed on relief rolls because of actual need," declared the administrator.

"Naturally, it is regretted the loss of 550 or non-relief supervisory workers on WPA projects will be a heavy blow to the state and district officials have any choice in the matter."

"Higher authorities have ordered the reduction and it is up to us to put it into effect with as little disturbance as possible."

Ingram said he understood the same order applies to all jobs being operated with relief funds, such as Reclamation Administration projects and others.

WHAT IT COSTS TO GET TAXES PAID

Tallahassee, May 6.—Cost of collecting state revenue ranges from 1.7 per cent in the State Comptroller's office to more than 20 per cent in the Bureau of Collection, according to figures compiled for Bryan Willis, special auditor for the Finance and Taxation and the Appropriation Committees of the Senate and the House. The figures are based on the last fiscal year's figures.

The report shows that for less than half the amount spent by the other three major collection agencies of the state the comptroller's office collects nearly three times as much as all three put together.

Mr. Willis' compilation on the "major revenue producing departments of the state follows: State Beverage Department collected \$2,815,761 at a cost of \$218,523, or 7.75 per cent.

Motor Vehicle Department collected \$5,345,764 at a cost of \$251,007 or 4.7 per cent.

State Racing Commission collected \$1,439,957 at a cost of \$13,330, or 2.19 per cent.

The new Haring Commission has reduced this cost of collecting revenue to about 11 per cent.

The Comptroller collected \$24,353,616 at a cost of \$412,422, or 1.7 per cent.

The auditor also reports that the actual cost of revenue collection through the Comptroller's office is somewhat less than that figure as the total listed includes all cost of the comptroller's office including such non-collection departments as the banking department, disbursement division, audit and pays 18,000 salaries, payroll and expense accounts of state institutions and employees, county finance department, railroad assessment department, auditing and others.

COLOR AND ACTION IN FILM AT PRINCE

The picture scheduled for the Prince Theatre at Pahokee for Sunday is Warner Bros.' production of James Oliver Curwood's novel "God's Country and the Woman." Of this picture the sponsors say:

"Warner Bros., who have taken pictures to the world, inventors of screen music, and created the vogue for film biographies, has done it again. This time they have taken 'God's Country and the Woman.' The result is an almost unbelievably beautiful production."

Taking his cast, headed by George Brent and Beverly Sills in the great woods district of Washington, Director William Keighley transferred the thrilling romance and stirring action of the novel to the screen. The million who have delighted in the novel will get an entirely new thrill when they see this picture, for the color photography is far more beautiful and natural than anything ever filmed and the director and players, including hundreds of real lumberjacks used as the book and become, not merely competent actors, but living personifications of the author's characters.

The Sunday evening picture at the Everglades Theatre is sequenced to "The Thin Man," under the title "After the Thin Man," and is a mixture of comedy and drama. William Powell and Myrna Loy are in the starring roles.

First Florida settlement was Pensacola, six years before St. Augustine. St. Augustine, however, is the oldest city in the United States with unbroken occupancy, established with great pomp and ceremony in 1565, declared the State Chamber of Commerce.

The Seminoles have been at war with the United States government for some 102 years. The war started in 1835 and no treaty has ever been signed.

Flag at Pensacola changed four times in 1719, from Spain to France and back again.
